### **From the Director's Desk—**

The summer reading program started in 1896 in Cleveland, Ohio to encourage youngsters to read between the end of school in the summer and the beginning of school in the fall, and this great program continues today. One popular misconception is the SRP is just for kids, which is not the case. People of any age, including adults, of course, can join in on the fun and read for pleasure all the while getting prizes generously donated by local businesses. It even counts if you read to kids, folks. This is not complicated. Just come in and let the staff at the desk know you would like to participate and you're in! Simple as one-two-three. Also of note, the books you read on OverDrive (including audiobooks) count toward your summer reading total, so read away. No matter how or how much, just keep reading. We'll be here waiting for you. See you soon! -Jon
