

From the Director's Desk

It is hard to believe, another year is past, and the summer is upon us! With the close of school and beginning of beautiful weather, we find ourselves stuck between obligations and mandatory fun- baseball games, 4th of July fireworks, hot dogs, corn on the cob, hamburgers on the grill and longer days. The library is a refuge for many, as when I was a kid, it was one of the only public places in town, let alone that sweet air conditioning and all those LP records, magazines and books, books, books. And computers. And bean bags. And did I mention all the books I could ever hope to read. The library is still that, and much, much more. As the director of a fine institution like the Fulton County Public Library, I am tasked with making sure the public we serve has what they want as well as what they need. All the same old stuff, Yeah, we do that too. We work on demand, and are here to serve you. Check out some of what the library has to offer, including reduced roadblocks to information- the WiFi is free, and so are our computers. I won't even get into the audiobooks, DVDs (did I mention we have BluRay?), new music and great new books, both fiction and non-fiction at your disposal. Come join the Collaborative Summer Library Program (also known as the Summer Reading Program) today, there is fun to be had by all ages. Inquire within, help us spread the word about the library and come check us out, you'll be amazed! Jon
